Members of the Town of Strafford, NH Planning Board:

This letter is to provide a cost estimate for the possible decommissioning of the proposed communications facility in Strafford, NH. The approximate cost would be \$20,000.00.

The decommissioning would include the removal of the 160-foot self-supporting tower, the fence, all electrical and telephone equipment, and any other fixtures used in the operation of the facility. As is customary in typical telecommunications decommissioning projects, it would not include the removal of the foundation or any below ground footings.

Please let me know should you have further questions.

Sincerely,

Steven Slade

President
