Re: Coverage Analysis Review of Proposed Mariner Tower – 15 Strafford Road, Strafford, NH

To Whom it May Concern:

Verizon's RF Engineering Team has reviewed the RF Report and coverage plots prepared by C Squared Systems, LLC and submitted with the Mariner Tower application, and concurs that the coverage shown from the proposed facility at 15 Strafford Road is similar to what Verizon would expect. The proposed site would fill a gap in coverage that currently exists in East Strafford as shown in the C Squared coverage plots.

Sincerely,

Gerard Boland
