#### B) Proposed amendment to Article 1.14.5 [Definitions] Frontage

##### **Current Zoning Definition**

Frontage means the length of the lot bordering on the public right-of-way and/or private right-of-way. Developments on private roads are subject to the same zoning regulations as those on public roads and private roads shall conform to the requirements of the Strafford Subdivision Regulations, Article 2.6.5. Frontage must be on a road in Strafford or directly accessed through Strafford.

## **Proposed Amendment**

- A. Frontage shall mean the contiguous length of the lot bordering on and granting access from a single Class V or equivalent road, as defined in NH RSA 229:5, or a road in a subdivision approved by the Planning Board.
  
- B. For lots that are situated entirely within Strafford or partly within an adjacent municipality, frontage must be determined by the portion of the road that is within Strafford. If, however, frontage for the lot lies fully within the adjacent municipality, which frontage satisfies the frontage requirements of that municipality, then the minimum frontage requirement of Strafford Article 1.4.1 is not required. However, for new lots, access to the portion of the new lot that lies within Strafford must be made from a State-maintained Road or Strafford town-maintained road or road within in a subdivision approved by the Strafford Planning Board. RSA 674:53.
